Appendix 1.

Evaluation of the Board and the CEO of the Danish National Research Foundation

As set forth in the Rules of Procedure for the board of directors (the "Board") and the chief executive officer (the "CEO") of the Danish National Research Foundation (article 11), the Board has decided to undertake an annual evaluation of the board members', the chair's and the CEO's contributions to the work of the Foundation.

1. Purpose

The overall purpose of the evaluation is to assure the quality of, and continuously improve, the work performed by the Board, the chair and the CEO.

The principles for the composition of the Board are laid down in the Act on the Danish National Research Foundation. Likewise, it is provided by statute that the chair and the members shall be appointed in their personal capacity by the Minister of Higher Education and Science. This means that the Board has no power to appoint or replace its members as most other foundations. Consequently, the evaluation will be undertaken only with the above purpose in view.

2. Evaluation process

It is important to the Board that the evaluation process focuses on creating a shared perspective of the existing work of the Board and the CEO and on forming a basis for any measures, including guidelines for the future work.

It is further important to the Board that the evaluation is conducted in a good and constructive atmosphere where each board member and the CEO are given the opportunity to participate and comment on all relevant matters.

The evaluation will be conducted on the basis of questionnaires followed up by the chair's individual evaluation interviews with each board member and with the CEO. Finally, the Board will conduct a joint evaluation discussion.

The Board seeks to carry out the evaluation so as to allow it to constructively draw conclusions and make recommendations in a subsequent action plan.

3. Use of questionnaire

The evaluation begins with the circulation of questionnaires to all board members, the chair and the CEO. Each respondent is to evaluate

- the overall work and efficiency of the Board;
- the work and efficiency of him- or herself and the other Board members / the CEO.

The questionnaire will be prepared annually by the chair on proposal from the CEO in a form suitable for determining the quality of the work of the Board and the CEO, e.g. by including the following subjects:

- Work of the Board

- Results achieved by the Board
- The efficiency of the Board/the CEO and their contribution to strategic and managerial matters
- The Board's cooperation with the CEO
- The chair's, or the vice chair's, contribution to the cooperation in the Board and with the CEO

The Board wishes the CEO to participate in the evaluation and to fill in questionnaires. The responses should therefore be categorized according to whether the response is made by a board member or by the CEO.

It is also important to the Board that the individual board member feels that he or she can respond with open and honest answers. The questionnaire responses of the board members will therefore be anonymous.

4. Individual interviews

On the basis of the completed questionnaires, the chair will conduct individual evaluation interviews with all board members and with the CEO.

The interviews must be conducted without disturbances and in a good and constructive atmosphere, and adequate time will be allocated for each interview.

5. Evaluation discussion in the Board

After the individual evaluation interviews, the Board will hold a joint evaluation discussion, usually in Q3. The discussion will be based on the chair's

- statement of the aggregate result of the questionnaires
- anonymized statement of the individual interviews, and possibly
- proposals for recommendations

If, after the discussion, the Board decides to implement measures to improve the work of the Foundation, such measures will be implemented on an equal basis with all other decisions of the Board, perhaps after the preparation of an action plan.
